El Programa provee para que el asegurado pueda recibir sus medicamentos especializados en cualquier farmacia dentro de la Red de Farmacias Especializadas contratadas por MCS Life.

Para lograr un mejor servicio para usted, es necesario que todo medicamento especializado esté preautorizado. La farmacia especializada gestionará con MCS Life la preautorización requerida para el despacho de estos medicamentos. Para los despachos subsiguientes, de haber expirado esa autorización, el médico debe enviar una receta a la farmacia especializada de su selección, dentro de la red contratada por MCS Life, para que esta gestione con MCS Life una nueva preautorización. El plan de salud no cubrirá los medicamentos especializados que no estén preautorizados.

Algunos medicamentos cubiertos pueden tener requisitos adicionales o límites en la cubierta. Estos requisitos y límites pueden ser:

- **Preautorización (PA, por sus siglas en inglés):** MCS Life requiere que usted o su médico obtengan autorización para ciertos medicamentos. Esto significa que debe cumplir con unos requisitos establecidos por la FDA para la aprobación de un medicamento. Generalmente se requiere, pero no se limita a diagnósticos y/o estudios clínicos como laboratorios, rayos X, electrocardiograma, etc. Si no cumple con los requisitos establecidos para que su medicamento sea aprobado, su plan puede no cubrir el medicamento.
- **Límites de cantidad (QL, por sus siglas en inglés):** Para ciertos medicamentos, MCS Life proveerá una cantidad de medicamento máxima, según la aprobación de la FDA. Esto puede ser adicional a un suministro estándar de un mes o tres meses. Por favor, refiérase a su póliza para más información sobre despachos de tres meses.
- **Terapia escalonada (ST, por sus siglas en inglés):** MCS Life se reserva el derecho de aplicar el beneficio de terapia escalonada para algunos medicamentos debidamente identificados en su formulario de medicamentos. Este programa requiere que el paciente utilice medicamentos de primera línea antes de utilizar cualquier otro medicamento de segunda línea de tratamiento. Se consideran medicamentos de primera línea aquellas opciones de tratamiento que están respaldadas por guías clínicas nacionales y estándares de la práctica médica como alternativas para utilizarse en la terapia inicial. Los medicamentos de

segunda línea son opciones de tratamiento, al igual que los de primera línea, pero las guías nacionales y estándares de la práctica los ubican como alternativas para utilizarse luego de haber utilizado los medicamentos de primera línea.

- **Límites de especialidad (PL, por sus siglas en inglés)** Algunos medicamentos requieren que la prescripción sea de ciertas especialidades médicas. Usualmente, estos medicamentos son productos especializados o medicamentos que deben ser monitoreados por médicos especializados en ciertas condiciones de salud. Si el médico que prescribe no se encuentra bajo la especialidad médica asignada a la categoría de medicamentos, recibirá un despacho para 15 días de suplido del medicamento prescrito sin repeticiones permitidas.

If you don't get approval, your plan may not cover the drug.*
- **Quantity Limits (QL):** *For certain drugs, MCS Life limits the amount of the drug that we will cover. For example, MCS Life will provide the maximum quantity, according to the FDA. This may be in addition to a standard one-month or three-month supply. Please refer to your policy for additional information on the three-month supply.*
- **Step Therapy (ST):** *MCS Life reserves the right to apply the benefit of step therapy for some drugs properly identified on its formulary. This program requires the patient to use first-line drugs before using any second-line drug treatment. Those first-line drugs treatment options that are backed by national clinical guidelines and standards of medical practice as alternatives for use in the initial therapy are considered. The second-line drugs are treatment options, as well as the first line, but national guidelines and standards of practice place them as alternatives for use after using the first-line drugs.*
- **Prescriber Specialty Limitation (PL)** *There are some drugs that need to be prescribed by certain medical specialties. Usually, those drugs are specialty products or drugs that must be monitored by specialized doctors to certain health conditions. If the prescribing physician is not under the medical specialty assigned to the category of medications, you will receive a 15-day supply of the prescribed medication with no repetitions allowed.*

¿LA LISTA DE MEDICAMENTOS CUBIERTOS PUEDE CAMBIAR?

Sí, el Departamento de Farmacia revisa la Lista de Medicamentos mensualmente. Si está tomando un medicamento incluido en nuestro formulario 2026 que estaba cubierto al comenzar la póliza, solo habrá cambios en el formulario o en procedimientos de manejo de medicamentos de receta cuando:

- Se publique información adversa, nueva, sobre la seguridad o efectividad de un medicamento;
- El fabricante lo retire del mercado o no lo pueda suplir;
- Consideramos que es importante que tenga acceso continuo a los medicamentos del formulario que estaban disponibles cuando eligió nuestro plan durante el resto del año de cubierta.

Es importante que usted tenga acceso continuo, durante el resto del año cubierta, a los medicamentos que estaban disponibles en el formulario cuando eligió nuestro plan.

Relevo de Responsabilidad: La cubierta de algunos medicamentos puede estar limitada a las formas de dosis específicas y/o potencia del medicamento. El diseño del plan determina lo que está cubierto y el copago aplicable. Conforme al artículo 4.050 (C) del Código de Seguros de Salud de Puerto Rico, este formulario puede sufrir cambios u otro procedimiento de manejo durante su año póliza, de manera oportuna, en las siguientes situaciones:

- (1) Nueva evidencia científica y médica u otra información relacionada con los medicamentos de receta que figuren en el formulario o estén sujetos a otro procedimiento de manejo y nueva evidencia científica y médica sobre medicamentos de receta recién aprobados y de otra índole que no figuren en el formulario o estén sujetos a algún otro procedimiento de manejo, para determinar si se debe hacer un cambio al formulario o procedimiento de manejo.
- (2) Si fuera aplicable, información que reciba la MCS Life respecto a solicitudes de excepción médica para permitir que el Comité de Farmacia y Terapéutica de MCS Life evalúe si los medicamentos que figuran en el formulario o que están sujetos a otro procedimiento de manejo, cumplen con las necesidades de las personas cubiertas o asegurados; e
- (3) Información sobre la seguridad y eficacia de los medicamentos de receta que figuran en el formulario o están sujetos a otro procedimiento de manejo, información sobre medicamentos de receta que sean clínicamente similares o bioequivalentes pero que no figuran en el formulario ni están sujetos a otro procedimiento de manejo, información que surja de las actividades de garantía de calidad de MCS Life, o información incluida en reclamaciones recibidas después de la revisión más reciente del Comité de Farmacia y Terapéutica de MCS Life de dichos medicamentos de receta.

Para determinar el estado más actualizado de su medicamento, por favor visite nuestra página de internet o llame a nuestro Centro de Llamadas de Servicio al Cliente.

CAN THE LIST OF MEDICINES CHANGE?

Yes, the Pharmacy Department reviews the List of Covered Drugs monthly. If you are taking a drug included in our 2026 Formulary, and that was covered at the beginning of the policy, changes to the formulary or prescription drug handling procedures can only occur when:

- *new adverse information about the safety or effectiveness of a drug is published,*
- *the manufacturer has withdrawn it from the market or cannot supply it.*

It is important that you have continuous access, for the remainder of the coverage year, to the formulary drugs that were available when you chose our plan.

Limitation of Liability: *Coverage for some medications may be limited to specific dosage forms and/or medication strength. The plan design determines what is covered and the applicable copayment. Pursuant to article 4.050 (C) of the Health Insurance Code of Puerto Rico, during this policy year, this formulary may undergo changes or other handling procedures, in a timely manner, based on the following situations:*

- (1) *New scientific and medical evidence or other information related to prescription drugs that appear on the formulary or that are subject to another management procedure and new scientific and medical evidence about newly approved prescription and other medications not listed or are subject to some other management procedure, to determine if a change to the form or handling procedure should be made.*
- (2) *If applicable, information received by the MCS Life regarding medical exception requests to allow the MCS Life's*

- Pharmacy and Therapeutics Committee to evaluate whether the medications that appear on the formulary or that are subject to another management procedure meet the needs of the covered or insured persons; and*
- (3) Information on the safety and efficacy of prescription medications that are listed on the formulary or are subject to another management procedure, information on prescription drugs that are clinically similar or bioequivalent but that are not listed on the formulary or are not subject to another management procedure, information that arises from the quality assurance activities of MCS Life, or information included in claims received after the most recent review by the MCS Life's Pharmacy and Therapeutic Committee of said prescription medications.*
